Summary

Hey, I'm Qing (Ching). I've got a background in visual design with a sharp eye for detail. Bringing together my skills in UX/UI, accessibility, and front-end development, I've gained a complete understanding of the digital product design cycle. I am excited to use this unique blend to create impactful, user-centric designs.

Experience

Website Accessibility Tester

Appen

Sep 2023 - Present (8 months)

- Conducted website accessibility testing using various tools and techniques
- Identified and documented accessibility issues and provided suggestions for improvements
- Collaborated with other testers and project team members to ensure project deliverables are completed on time.

UX Designer

Self Employed

Jan 2023 - Present (1 year 4 months)

- Conducted user research and evaluated research results to aid management team decision-making.
- Investigated user interface issues to make sure the website is accessible to different devices.
- Advocated for the use of the WAVE evaluation tool to identify website accessibility issues and raised client awareness regarding these concerns.
